Standard Features:

- + Suitable for 1-4 color small size printing, widely apply in many industries including stationery, toys, plastic, gift, electrical appliances, electronic, etc;
- + Microprocessor operation system, electro-pneumatic control;
- + 160mm standard stroke, ink cup design, no smell and low evaporation;
- + Independent adjustment of up and down, front and back stroke;
- + Versatile X, Y printing pad adjustment;
- + Ink cup base with X, Y, R adjustment;
- + The shuttle is disassembly flexible;
- + Heavy-duty construction with cabinet ensures years of reliable operation;
- + Stable, durable and fine workmanship;
- + Foot pedal operation for single cycle;
- + Using Germany FESTO pneumatic components;
- + Installed safety guard and emergency stop button(optional);
- + Complying with CE safety standards.

Machine Specifications:

Model NO.	HMC-160C-4
Plate size	250 x 100mm (10"x4")
Plate thickness	0.5 mm
Ink cup size (diameter)	ID82 x OD90 mm (3.23"x3.54")
Max. printing size	75 x 75 mm (2.95"x2.95")
Printing capacity	1,000 cycles/hour
Drive	Pneumatic
Printing force	982 N
Control system	12V PCB
Front & back working stroke	160 mm
Air requirement	5 bar (72.5 psi)
Main voltage	110V/220V 50/60Hz 40W
Machine size	L1020xW780xH1430 mm (40.16"x30.7"x56.30")
Crated size	L1150 x W950 x H1550mm (45.28"x37.4"x61")
Net weight	135 kg (297 lbs)
Gross weight	230kg (506 lbs)
